TO OUR VALUED CUSTOMERS...

With another new year of possibilities upon us, one constant that you can always rely on is your Marmon/Keystone team. Meeting your requirements and providing you with the first-rate service that you deserve remains our number one priority; our employees are always willing to go the extra mile for you. We held our 21st annual Quality Renewal Celebration this year, reaffirming our company-wide commitment to continual quality improvement. The Quality process continues to be a major part of Marmon/Keystone's everyday operations.

Marmon/Keystone has been and always will be committed to expanding within the United States in order to offer you better service and selection. We have recently opened a new facility in Tulsa, Oklahoma, and have plans to launch additional facilities in the near future.

Marmon/Keystone continues to grow our extensive inventory of over 15,000 sizes and grades in carbon, alloy, stainless and aluminum tube and bar products, which are readily available to a wide variety of industries.

Our employees understand that you, our Customer, have choices and we go out of our way to ensure you continue to choose Marmon/Keystone. We appreciate your support throughout the year.

Sincerely,

J.T. “Tim” Spatafore
President
**The Marmon/Keystone Mission Statement**

Create and maintain a positive and ethical environment in which quality employees develop efficient and economical methods to purchase from responsible suppliers to warehouse, market and timely deliver quality tubular and bar products, and provide related services to responsible customers worldwide to earn an acceptable return on investment while maintaining a manageable rate of growth.

---

**Marmon/Keystone’s Statement of Quality**

MARMON/KEYSTONE LLC, dedicated to serving the customer and continuing as a world-class distributor of tubular and bar products, is committed to the following principles of Total Quality Improvement:

1. To know, understand and fulfill internal and external customer requirements.
2. Through the quality process, to achieve zero defects in all areas by creating a spirit of doing the right things right the first time.
3. With regard to continuous quality improvement company-wide, assure that all employees receive equal opportunity to express themselves openly, honestly, orally, and in writing to receive timely feedback, and to be recognized for their efforts.
4. To utilize a manageable number of suppliers consistent with our requirements.
5. Plan, establish, review and communicate quality goals.

---

**The Pipe and Tubing People**
## INFORMATION AT A GLANCE

### WHO WE ARE

- With locations throughout the United States, Canada and Mexico, Marmon/Keystone is the largest stocking distributor of tubular products and specialty bar in the world.
- We employ more than 1,300 people worldwide, representing a total of more than 20,000 years of steel industry experience.

### FINANCIAL STABILITY

- Marmon/Keystone LLC is a Marmon Distribution Services Company and a member of The Marmon Group, an international association of more than 125 business units that operate independently within diverse business sectors. Member companies have collective revenues of $7 billion. The Marmon Group is a Berkshire Hathaway company.

### CONTINUOUS QUALITY IMPROVEMENT

- A company-wide Quality Improvement Process places responsibility for quality in the hands of the people who can make a difference — every single employee.
- Our Quality Improvement Process represents a capital investment of more than $1 million per year.
- We train every employee in the quality ideals through 20 hours of intensive instruction.
- Every employee serves on one of 100 unit teams, which act as steering committees for long-range process planning and quality improvement.
- Interdepartmental and interdisciplinary Corrective Action Teams submit thousands of corrective action measures per year.
- Statistical process control is used to monitor each location’s performance with regard to:
  - On-time deliveries (99%+ company-wide)
  - Rate of returned merchandise (1/4% company-wide)
  - Customer service level
  - Productivity per man hour
  - Safety
- All suppliers are subject to a rigorous Supplier Quality System that holds them to high standards of quality of materials, delivery and service performance, as well as competitive pricing.

### FACILITIES AND EQUIPMENT

- Marmon/Keystone encompasses over 2.5 million square feet of office and warehouse space along with more than 300 acres of outside storage.
- Over the last several years, numerous facilities have received more than $50 million for expansion and enhancements, including high volume stacker systems, state-of-the-art material handling systems, new saws, cranes, and other equipment, all aimed at improving efficiency of work stations.

### SYSTEMS

- We support numerous systems related customer services from EDI to inventory access to e-Commerce. These systems enable us to integrate with customers and vendors to facilitate seamless data sharing and improved communications. They provide our staff with instant access to customer, inventory and shipping information enabling them to service our customers more accurately and faster. Marmon/Keystone constantly works on upgrading these systems to keep them current and state of the art.

### INVENTORY

- Marmon/Keystone stocks more than $100 million in inventory and offers more than 400 product classifications comprising over 10,000 individual items.
- Our entire inventory is readily available to all locations.

### TRANSPORTATION

- Delivery easily arranged and expedited via our fleet of tractor trailers.
- Timely delivery also provided through M/K Express, our subsidiary trucking company.

### LOCATIONS (see details on page 5)

- Marmon/Keystone’s comprehensive network of facilities spans the United States, Canada and Mexico.
- Subsidiary companies such as Future Metals and Bushwick Metals enable us to serve an expanded range of industries and markets.
- We aggressively seek strategically located acquisitions domestically and abroad.
MARMON/KEYSTONE can enhance your manufacturing capabilities by providing a full range of finished or semi-finished parts which can be moved directly to the assembly line. Additionally, we can provide individual services which can include, but are not limited to the following:

- Anodizing
- Bending
- Beveling
- Boring
- Cleaning
- Drilling
- Fabricating
- Grinding
- Grooving (I.D., O.D.)
- Heat Treatment
- Honing
- Machining
- Milling
- Precision Cutting
- Plating
- Polishing
- Punching
- Tapping
- Threading
- Welding

**CUSTOMER-ADDED PERFORMANCE SERVICES**

- Bar Coding: Allows for efficient handling of material through electronic receipt and distribution of goods.
